❖ **2018:**

Awarded the Order of the Oak Crown in the grade of Knight by the Grand Duchy of Luxembourg for dedicated services in the field of tax advisory, accounting and audit services during the last decades

In 1995 I decided to establish the EUROLUX GROUP and thus took the decisive step towards independence.

As an approved statutory auditor and chartered accountant in Luxembourg and due to my more than 30 years of very diverse professional experience in auditing and tax consulting for private and corporate clients as well as foundations, both in national and international, medium-sized and capital market-oriented companies, I will be pleased to advise you on all aspects of the establishment and structuring as well as financial development, optimisation and management of your company.

EUROLUX's range of services includes in particular the preparation and auditing of individual and consolidated financial statements in accordance with Luxembourg GAAP and International Financial Reporting Standards as well as special audits and company valuations. Other focal points are auditing and consulting services in the context of risk management, including internal control systems and audits, as well as advice on all tax matters, both for individuals and legal entities, including the preparation of various tax returns.

My team and I work with passion and great commitment for EUROLUX and look forward to your interest and contact.
